Profile

Detail-oriented Documentation Writer & Project Manager with experience in technical writing, web development, and UI/UX design. Proficient in HTML, CSS, basic JavaScript, and Figma. Skilled in research, structured content creation, and project coordination, ensuring clarity and efficiency in documentation and development workflows.

Experience

Documentation Writer

WAD 1 & 4Ps Collaboration | Dates from 2024

- Authored research-style documentation for an interdisciplinary project combining Web Application and Development 1 and Pagtuturo at Pagtataya sa Pagbasa at Pagsulat.
- Handled all writing and structuring independently, ensuring clarity, coherence, and alignment with academic standards.

Lead Scriptwriter

NXCUS Production | Dates from 2024- 2025

- Wrote the script for a student short film, focusing on strong dialogue and cohesive storytelling.
- Collaborated with the team to align the narrative with the film's tone, theme, and visual direction.

Lead Documentation Writer

Human Computer Interaction | Dates from 2025

- Leading the documentation process for a Human-Computer Interaction (HCI) project, focusing on research writing and prototype documentation.
- Responsible for organizing and drafting key sections such as project background, user needs, and design rationale.

Project Manager / Lead Documentation Writer

Web Application and Development 2 | Dates from 2025

- Lead documentation writer and project manager for an ongoing Web App Development 2 project, overseeing both content and team progress.
- Handles project timelines, coordinates tasks, and writes key documentation such as technical overviews and development plans.
